Cable Runway Elevation Kit for Racks, TeraFrame, GlobalFrame and MegaFrame Cabinets

Supports Cable Runway above a continuous row of CPI Racks or TeraFrame, GlobalFrame or MegaFrame Cabinets of varying heights and provides additional space between the tops of the racks or cabinets and the cable runway, which can create smoother transition of cables.

- Three ranges of incremental elevation
- Can be mounted perpendicular or parallel
- Rack kit includes a single pair of brackets and assembly hardware
- Rack kits attach to the top of the rack with a Rack-To-Runway Mounting Plate (P/N 10595 or 12121, sold separately)
- Cabinet kits include two pairs of brackets and assembly hardware
- Cabinet kits attach directly to the top of the TeraFrame, GlobalFrame or MegaFrame Cabinets
- Compatible with Adjustable Cable Runway
