NEW ITEM

SELF-DRILLING PHILLIPS BUGLE HEAD FINE THREAD

PC 4261

Used for many purposes, including the attachment of drywall to metal studs. Fine threads and the self-drilling point make these screws ideal for drilling and holding into metal framing studs and other types of metal or aluminum framing.

FEATURES:

- Self-drilling point penetrates 20-12 ga. steel
- Fine thread
- Black phosphate, carbon steel
- Bugle head leaves a clean flush finish
- RoHS
- Invincibox™
- Tuff pack
