Subject: Persistent organic pollutants (POPs) declaration

According to our current best knowledge and according to the information provided by our suppliers, ABB states that manufactured Moulded Case, Air and Solid-State Circuit Breakers and related accessories do not intentionally contain substances listed in:

- Regulation (EU) 2019/1021 of the European Parliament and of the Council of 20th June 2019 on persistent organic pollutants
- Regulation (EU) 2022/2400 of the European Parliament and of the Council of 23rd November 2022 amending Annexes IV and V to Regulation (EU) 2019/1021 on persistent organic pollutants

and therefore, substances in scope of these regulations are not expected to be present above limit values.

Although the above-mentioned substances are not intentionally added, this does not exclude the potential presence of traces (e.g. due to impurities) in the components supplied by third parties and used in manufactured products.

Absence has not been checked by tests.
