BI-METAL RECIP BLADES

LONG LASTING, FAST CUTTING AND VERSATILE

LONG LIFE
Patented, *TUFF TOOTH*™ design provides long blade life

EFFICIENT CUTTING
Optimized for specific applications

DURABLE CONSTRUCTION
Shatter resistant, bi-metal design provides the flexibility and durability single-metal blades can't

T2 TECHNOLOGY

A revolutionary new blade design that delivers up to 100% longer blade life and 25% faster performance in metal cutting applications versus the prior generation of LENOX reciprocating saw blades.

ENGINEERED FOR PERFORMANCE

The patent pending design is designed to minimize friction and heat build-up while cutting through the widest variety of metal materials.
