

Liquid-Tight, Concrete-Tight Zinc Fitting

For PVC Jacketed MC Cable • One Fitting Fits Multiple Cable Sizes

Arlington's liquid-tight, concrete-tight zinc fittings for PVC jacketed MC cable, come with grommets and washers that allow this SINGLE fitting to fit THREE cable sizes: #12, #14, and #10.

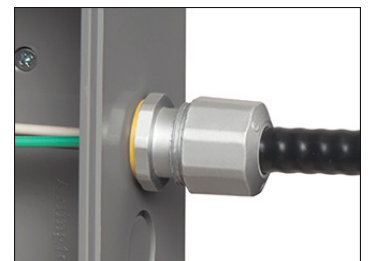

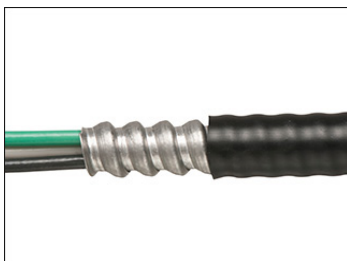

Features

- The 1/2" LTM50 ships ready to install on #12 or #14 PVC jacketed MC Cable. (For installations on #10 cable simply substitute the WHITE grommet and washer.)
- Helps reduce inventory and saves on cost of stocking several different fittings
- Heavy-duty zinc die-cast construction
- 1/2" trade size
- UL Listed

Shown above: White grommet and washer for installations on #10 cable

Installation Instructions

Remove sharp edges from end of MC cable. Cut 1-1/4" off the PVC jacket to prepare cable for installation of fitting.
