Installing power and low voltage boxes? Try Arlington's non-metallic Combination Boxes.

LVD 2 is the best way to install power and phone/cable outlets together, in one neat location in *new construction*.

Why accept this.. when you can have a neat installation,

like this

Just nail the LVD 2 to a wood stud, or screw

onto metal studs. Installation is fast and easy!

The low voltage side, for low voltage/Class 2 wiring includes combo 1/2" and 3/4" KOs for raceway.

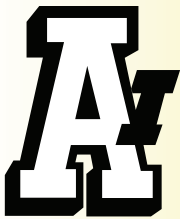

LVD 2 protects cable from damage – and it's the sturdiest box of its kind.

- UL Listed
- Competitively priced
- Ships ready to install with (2) nails in place
