Designed and built with versatility and labor savings in mind, the Offset Strut Strap provides

contractors with enhanced quality and ultimately reduces installation time on a job site. Thanks to its offset angle and innovative orientation, this revolutionary strap will have contractors across all industries completing tough jobs in a fraction of the time. With a captive screw threaded directly into the strap and a head style that is compatible with a phillips, slotted, hex, as well as square drive, the Offset Strut Strap is as versatile as it is time saving.
