### Intermediate and Base Spacer Dimensions

For completely enclosed and locked-in duct banks:

- They snap together vertically and horizontally for fast, secure field assembly.
- Only two components, base and intermediate, are needed. Banking is not necessary.
- To prevent the top tier from floating during encased burial, it is suggested that an intermediate spacer be used as a cap.
- Spacers are designed for use with plastic duct only.

| Spacer    | Dimension |      |      |      |      |      |
|-----------|-----------|------|------|------|------|------|

## **Limited Warranty**

PWPipe warrants that its PVC pipe products were manufactured in accordance with applicable materials and product specifications, and that the pipe is free from all defects in materials and workmanship using the applicable specifications as a standard.

Every claim under this warranty shall be deemed waived unless presented in writing and received by PWPipe within sixty (60) days of the date the defect was, or should have been discovered or within two (2) years of the date of PWPipe's shipment of the product, whichever occurs sooner.

PWPipe makes no other warranty or representation of any kind, expressed or implied, in fact or in law, including without limitation the warrant of merchantability or fitness for a particular purpose, other than the limited warranty set forth above.

## **Limitation of Liability**

It is expressly agreed that the limit of PWPipe's liability is the replacement of defective product with the same quantity of non-defective product, and that PWPipe shall have no such liability unless the claim results solely from breach of PWPipe's warranty.

In no event shall PWPipe be liable for any incidental or consequential damages of any kind, including without limitation, any expense or removal or reinstallation resulting from any defect.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

## The Quality Connection

*PWPipe is recognized for the best quality products and service in the industry.*

*PWPipe's Electrical and Telecommunications Division operates four fully stocked service centers strategically located to serve you better and faster. In addition to stocking a full line of PVC conduit and fittings, our plants at Tacoma, Cameron Park, Perris and now West Jordan are each equipped with a fully-trained team whose goal is to service your order promptly and efficiently. Each team is made up of production, shipping and customer service personnel who are on site with the necessary problem-solving skills in the event one of your orders presents a special challenge.*
