

P3006 thru P3013 - Channel Nuts w/o Spring (1-5/8" Series)

Channel Nuts allow for easy installation into Atkore channel. The shape of the body is designed to orient itself in the channel during torquing to align properly for installation.

Features

- The 1/2" and 5/8" sizes in an EG finish are OPM and LARR pre-approved for seismic bracing.
- Seismic load capacities have been tested in accordance with seismic standards
- No tangling in the box
- OPM pre-approved for seismic applications
- This series is available in ElectroGalvanized (EG), Atkore Defender (DF), Hot-Dip Galvanized (HG), and Stainless Steel (SS).
